RE: DR-3-20-09, Lawrence Freenet Downtown

Dear Ms. Adair:

The Lawrence Historic Resources Commission (HRC) at their meeting on March 26, 2009 approved the above-referenced request. The approval was based upon a determination that the proposed project "would not encroach upon, damage or destroy any historic property or the environs" with the following conditions:

1. This recommendation is given with the understanding that the City Commission must approve any associated permits, licenses or agreements. Approval of this request by staff or the HRC does not guarantee the City Commission will approve the associated permits, licenses or agreements.
2. This approval is only for the ten units and the precise location identified in the map supplied by the applicant.
3. The units should be painted the color of the pole onto which they are attached to make them less noticeable.
4. The units will be located as close as possible to the main vertical pole.
5. The applicant will continue to evaluate new equipment that may be less intrusive into the Downtown Historic District.
6. Any changes to the approved project will be submitted to the Historic Resources Commission prior to the commencement of any related work.

When all of the conditions have been met, a release memo will be sent to the Development Services. Should your plans change from the approved set of drawings you must notify the Planning Office prior to beginning construction on that portion of the project.

On behalf of the City of Lawrence and the Historic Resources Commission, I would like to thank you for your cooperation. If I can be of further assistance, please do not hesitate to contact me (832-3151).

Sincerely,

Lynne Braddock Zollner
Historic Resources Administrator
