RE: Sidewalk Dining and Hospitality License public hearing on 2/21/12

To the City Commission:

In our recent application for a Sidewalk Dining and Hospitality License we did not include written statements from adjoining tenants because there is no adjoining building to the north and the adjoining building to the south was vacant at the time. Your records will show that past applications have included supporting statements from the tenants to the south and we are unaware of any complaints regarding our sidewalk dining operation. Therefore we request that our application be approved.

Sincerely,

Clay Belcher,
owner
