RE: SE corner of 6th and Congressional Project

Dear Director McCullough and Members of Planning Department:

I am writing on behalf of the proposed project at the Southeast corner of 6th and Congressional Dr. to express our full support of the local retail expansion.

I am currently a Lawrence resident and a customer of the local business's that will be expanding into the proposed retail project on the southeast corner of 6th and Congressional Dr. I am excited to learn that the businesses I support are thriving enough to expand into a larger facility, to help provide the necessary services to Lawrence residents. By providing the necessary zoning changes, I am also confident the City of Lawrence will do their part to ensure that these local businesses will continue to thrive.

Additionally, it is my understanding that the expansion will provide needed economic tax benefits to the City of Lawrence and provide additional employment opportunities to the area.

As a member of the Lawrence community and a supporter of local businesses, I respectfully request that the Planning Commission recommend support of the 6th and Congressional project.

Best regards,

RE: SE corner of 6th and Congressional Project

Dear Director McCullough and Members of Planning Department:

I am writing on behalf of the proposed project at the Southeast corner of 6th and Congressional Dr. to express our full support of the local retail expansion.

I am currently a Lawrence resident and a customer of the local business's that will be expanding into the proposed retail project on the southeast corner of 6th and Congressional Dr. I am excited to learn that the businesses I support are thriving enough to expand into a larger facility, to help provide the necessary services to Lawrence residents. By providing the necessary zoning changes, I am also confident the City of Lawrence will do their part to ensure that these local businesses will continue to thrive.

Additionally, it is my understanding that the expansion will provide needed economic tax benefits to the City of Lawrence and provide additional employment opportunities to the area.

As a member of the Lawrence community and a supporter of local businesses, I respectfully request that the Planning Commission recommend support of the 6th and Congressional project.

Best regards,
