About this item

The Sony BRC-Z330 is a high definition PTZ camera featuring a 1/3" 2-MegaPixel CMOS image sensor and is designed for a wide variety of remote video applications. The unit answers today's growing demand for full HD images from robotic cameras. The camera's wide pan/tilt ranges and smooth pan/tilt/zoom capability make it perfect for deployment in locations such as houses of worship and auditoriums, as well as educational facilities, conferences and concerts halls.

The Sony BRC-Z330 is a high definition PTZ camera featuring a 1/3" 2-MegaPixel CMOS image sensor and is designed for a wide variety of remote video applications. The unit answers today's growing demand for full HD images from robotic cameras. The camera's wide pan/tilt ranges and smooth pan/tilt/zoom capability make it perfect for deployment in locations such as houses of worship and auditoriums, as well as educational facilities, conferences and concerts halls.

Compact Frame

The BRC-Z330 is the smallest model in the BRC series. The compact and light housing makes installation and operation quick and easy. Thanks to the adoption of a direct-drive pan/tilt mechanism, it has a quiet operation that minimizes interference with ongoing events, helping it blend in naturally with the surrounding environment.

18x Optical Zoom

By incorporating an 18x optical zoom lens, the BRC-Z330 enables users to zoom in on small or distant objects with a high degree of accuracy. The use of a 4x digital zoom in combination with the lens greater improves its zooming capability, up to 72x! Very Cool.

1080i, 720p and Standard Definition Output Capability

The camera simultaneously delivers stunning high definition images in 1080i and 720p, while still having capability for output standard definition. This dual-output capability allows the camera to be integrated into systems that will end up migrating from SD to HD in the future.

Estimated arrival at B&H is 7-14 days. Your order will only be charged at time of shipment.

SONY BRCZ330

The BRC-Z330 is equipped with a 1/3-type 2-megapixel CMOS image sensor. The competitive list price is in answer to today's growing demand for full HD images from robotic cameras. The camera's wide pan/tilt ranges and smooth pan/tilt/zoom capability make it perfect for deployment in locations such as

houses of worship and auditoriums, as well as at educational facilities, conferences and concerts.

The BRC-Z330's compact and light body makes installation and operation very smooth. Moreover, thanks to the adoption of a direct-drive pan/tilt mechanism, it has a quiet operation that minimizes interference with ongoing events and helps it blend in naturally with surrounding environments. This camera also incorporates a relatively low-power-consumption CMOS image sensor.

Features:

- HD CMOS P/T/Z Camera
- Compact Size and Silent Mechanism
- 18x Optical Zoom (72x with Digital Zoom)
- 1080i, 720p, and SD Output
- Optical Card Slot for BRBK-HD2: HD SDI output card
- External Synchronization Function
- VISCA™ Control (RS-232C/RS-422)
