Lawrence Avenue Re-Striping

The Public Works Department recently re-striped a section of Lawrence Avenue, north of 6th Street, to Princeton and Princeton, from South Iowa to Peterson Road. The re-striping designated areas of the roadway for parking, bicyclists, and motorists. The Bicycle Advisory Committee requested the striping since the roadway was so wide that motorists were often found using the roadway as a two-lane road despite the lack of striping as a two-lane road. The new markings clearly define the uses for the road for bicyclists and motorists.
