

BUG GOURMET FEATURED ON FOX 4 MORNING SHOW

Marty Birrell, nature interpretive supervisor, recently appeared on two cooking segments of the Fox 4 Morning Show in Kansas City to prepare a couple of dishes using bugs and highlighting a program, *The Bug Gourmet*, that was being held at Prairie Park Nature Center. The menu consisted of [Hot Cockroach and Cricket Thai Curry](#) and [Stick Bug Summer Rolls](#). As seen in the video, Marty did a great job and the Fox 4 news team had a lot of fun with the segments, as well bringing some great attention to Parks and Recreation, the nature center and the innovative, creative programming offered.
