

Incident Command System for Executives and Senior Officials

June 9, 2014
5:00PM—7:00PM

Baldwin City Library
800 7th Street
Baldwin City, KS

This two-hour course is an orientation of the Incident Command System (ICS) for Executives and Senior Officials (including elected officials, city/county managers, agency administrators, etc.). In most jurisdictions, responsibility for the protection of the citizen rests with the chief elected official. Along with this responsibility, by virtue of their office, these people have the authority to make decisions, commit resources, obligate funds, and command the resources necessary to protect the population, stop the spread of damage, and protect the environment.
