SECTION 4. The Code of the City of Lawrence, Kansas, 2015 Edition, and amendments thereto, is hereby amended by adding Chapter 20, Article 17, Section 20-1771, which reads as follows:

20-1771 MAKERSPACE

The Makerspace use encompasses a physical location where persons gather collaboratively to share resources and knowledge, to work on projects, to network, and to build. Makerspaces often provide tools and workspace in a community environment that fosters innovation, experimentation, and education. Makerspaces often involve a collaborative group organized around a common interest or interests, such as the arts, electronics, crafts, engineering, computer science, or graphic design. Often, Makerspaces provide learning experiences through hands-on exploration, mentoring, and peer collaboration.

Makerspaces may include components commonly associated with gallery and display spaces, instructional spaces, collaborative meeting spaces, workshops, and fabrication laboratories and studios that provide access to tools and equipment, including but not limited to: Computer Numerical Control (CNC); Computer Aided Design (CAD); Computer Aided Manufacturing (CAM); hand tools; power tools used in cabinetry/ woodworking; and tools for glass work and metal work, including kilns and welding equipment.

Makerspaces provide workspace for development of innovative, original, and prototypical products and works of art. In that way, the Makerspace use differs from industrial and other manufacturing uses that typically produce, reproduce, fabricate or assemble multiple units of the same product.

(1) Makerspace, Limited

A use, within an enclosed Structure or multiple Structures, that provides workspace to those engaged in collaborative and innovative activities, which use does not include any of the following elements: frequent and heavy truck access for deliveries, exterior storage of raw materials, exterior workspace, or the use of power tools.

(2) Makerspace, Intensive

A use that, like the Makerspace, Limited use, provides workspace to those engaged in collaborative and innovative activities, but which use does involve one or more of the following elements: frequent and heavy truck access for deliveries, exterior storage of raw materials, exterior workspace, or the use of power tools.
