

Multi-Modal Planning Studies

Your Opinion Counts! The Lawrence-Douglas County Metropolitan Planning Organization (MPO) will be kicking off a three-part multimodal transportation planning study to explore mobility issues in Lawrence and throughout Douglas County.

We need your input on the following issues:

Countywide Bikeway System Plan – this project will expand the existing bikeway system planning efforts and the Bikeway System Map to cover all of Douglas County. This project will look at on-road and off-road bikeways, and possible bikeway connections from Douglas County to other areas including Metro Kansas City and the Topeka Area.

Commuter Park & Ride Study – this study will involve looking at possible locations to plan commuter park and ride lots to serve the needs of Douglas County residents who work in Topeka and Metro Kansas City. It could also serve shuttle bus needs for special event days in Lawrence.

Fixed Route Transit and Pedestrian Accessibility Study – this study will look at obstacles that transit riders face in accessing the fixed route system and identify places where improvements to the pedestrian environment can be made to improve and/or enable people to access fixed route transit services for the general public that are provided by the coordinated City-KU system.

**Come to our Open House to discuss:
Wednesday, June 5 | Union Pacific Depot**

4:30 p.m.-7:30 p.m.

**Or use our online interactive mapping tool anytime:
