Media Release

LAWRENCE, KS – At 10:13 a.m. on this date Lawrence Douglas County Fire Medical was dispatched for a 2 inch high pressure gas line break that occurred when a construction crew began digging for placement of an electrical pole in the alley behind 646 Massachusetts.

Upon arrival on scene, Lawrence Douglas County Fire and Medical crews began immediate evacuation of two businesses as a precautionary measure while gas readings were obtained at these businesses and several in the surrounding area. No readings were found and the leak was contained at 10:41 a.m. All businesses have resumed normal operation.

-End-
