Among other achievements, Mr. Powell managed the largest operation of electric vehicles ever assembled during the Centennial Olympic Games in Atlanta, Georgia in 1996. During a 33-day event, over 3.5 million passenger trips occurred on electric vehicles.

Previously, Mr. Powell, as an employee of Ryder/ATE Management, was General Manager of the Worcester Area Transportation Company and the Worcester Van Express in Worcester, Massachusetts. His 32 years of public transportation experience also include stops in Cincinnati, Ohio; Indianapolis, Indiana; Detroit, Michigan; and Norwich, Connecticut.
