To whom it may concern,
I am writing in to comment on the 2025-2028 TIP draft. It's a bit of a challenge for me to fully read and digest the whole TIP draft but I would just like to request that the city of Lawrence please continue to fund, improve, and expand cycling infrastructure in Lawrence. When choosing where to relocate to in Kansas from Omaha last year my family used cycling infrastructure as one of our metrics. Lawrence appears to us to be a cyclist friendly community and a city with plans to make it better aka completing the Loop. Please continue to keep cyclists in mind. We tear up the roads less than automobiles, we do not require huge parking lots or structures, and we are fueled by locally roasted coffee and locally baked pastries, not fossil fuels or electricity.

From: City of Lawrence MSO CMED
Date Received: 9/4/24

TIP #519 be revised as follows & removed from “completed projects”
Move CONST funding to 2025. Project construction was delayed and now extends into FFY 2025.

Staff responded to public comment and updated the TIP as needed.
