These funds are used to pay for utility system design and construction costs, interest and debt issuance costs, and capital improvements, which expand the capacity of the water and wastewater systems. Water system development charge collections are designated to be used only for wastewater system development charge collections are designated to be used only for wastewater utility capital

2022 Municipal Services & Operations Report System Development Charges Submitted: 3/29/23 improvements. The funds collected in a given year are expended in the following year. Table B1 shows the 2020 and 2022 water and wastewater system development charges collected. Table B2 shows 2022 water and wastewater system development charges collected by month. Further detail describing the implementation of system development charges can be found in the most recent version of the water and wastewater rate study.
